

Stay positive

A story to help you feel good about moving classes at WPS

Written by William
Newbronner

One day there was a boy called Freddie and he was really scared about joining the school as well as moving up years to Year 3. There was a little girl called Amelia and she said that if you are scared maybe you can think of the positives of moving up years and this will help you become excited!

So the next day was moving up day in Wandsworth prep and Freddie was thinking about what Amelia had said and he tried thinking about the positive things.

You get to
meet a
new
teacher!

You can
still stay in
touch with
your old
teacher!

You learn
new things
like harder
problem
solving

You get to
be a role
model for
the younger
children!

Another tip Amelia gave was to think of funny things whenever you are feeling nervous as they can make you giggle...

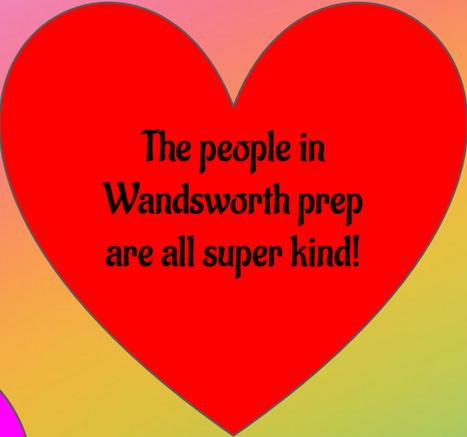

He thought about a very silly memory and this one was when his dad slipped on a banana peel...

He thought about his little sister who had lost her toy but it was underneath where she was sitting ...!

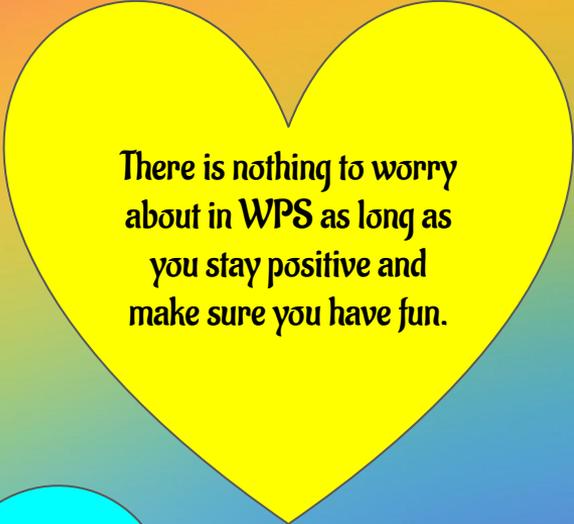

He thought about his mum with the vacuum cleaner and she sucked up her sock...

He thought about his dog crawling over another dog sitting on the sofa ...

Freddie realised that he really liked lots of things about WPS...

The people in
Wandsworth prep
are all super kind!

There is nothing to worry
about in WPS as long as
you stay positive and
make sure you have fun.

The teachers and
the children all
have a positive
attitude.

They also work as
a team and they
are really
collaborative.

When the morning was over, he went to Amelia and said "Thank you!"

Amelia said "You are welcome! Now, just think of the positive things about moving up into a different class or a new school and you will succeed!"
